

OLEVI Advanced Skills Educational Leader Award

Great Leaders can lead and manage individuals, teams and projects with integrity and competence, promoting trust, collaboration, and higher aspirations. They communicate effectively when chairing meetings, holding challenging conversations, and providing constructive feedback. They understand how to design, deliver and evaluate improvement projects so they achieve the desired results. Leaders that are highly reflective and resilient can learn and grow as their role develops over time.

This programme consists of 6 focused sessions with a series of post session challenges, completed over a 12 period. The sessions are run over 3-hour sessions. The programme has been designed for delivery online and/or face-to-face. The accreditation process involves a knowledge test as well as two professional discussions.

As well as achieving this OLEVI Award, you will receive a diploma and be qualified as a L5 Manager. You will be accredited to create and implement strategic projects to achieve results; develop relationships with, and the performance of, others in your team; and understand your own strengths and areas for development as a leader, managing your own growth.
